

Who We Are

As an economic catalyst in **Westchester County** and the **Hudson Valley**, our mission revolves around **empowering small business owners and entrepreneurs through vital financing and business support**. As a nonprofit organization, we take pride in being an innovative **Community Development Financial Institution (CDFI)** certified by the U.S. Department of the Treasury.

Our primary focus is providing loans that conventional lenders often cannot or will not provide, ensuring that deserving individuals have access to capital and the resources they need to start or grow their businesses.

What We Provide

At Community Capital, we go beyond providing small business loans; we believe in empowering our clients through comprehensive support. **With over 5,500 hours of FREE business training, financial guidance, and one-on-one consulting annually, we ensure our clients receive the tools they need to succeed.**

We offer free pre- and post-loan technical assistance:

- All of our loans are paired with free, ongoing financial coaching, one-on-one business consulting, and business training to support and prepare our clients to promote sustainable business results.
- Our clients receive guidance in gathering and preparing required loan documents.
- During the loan process and post-loan, CCNY provides one-on-one business consulting to clients to help solve business issues they face.

As clients grow their businesses or work to start a new business, CCNY offers free workshops and webinars on specific business topics such as: **understanding capital options, QuickBooks training, legal clinics, online marketing, and managing cash flow** which equips our loan clients with essential new business skills.

Our comprehensive approach aims to enhance business success rate, increase profitability, and promote sustainable growth for the small businesses we serve.

A message from our Chief Lending Officer, Kelly Almanzar

"I am deeply proud of Community Capital New York's mission of offering a variety of low-cost loans and free business consulting services, which are tailored to uplift and empower low-income and minority small business owners in our community. We are dedicated to fostering growth and success within these underserved segments, transforming business aspirations into achievements."

-Kelly Almanzar
